

languages and writing and computers in the development of Nepal

Patrick Hall

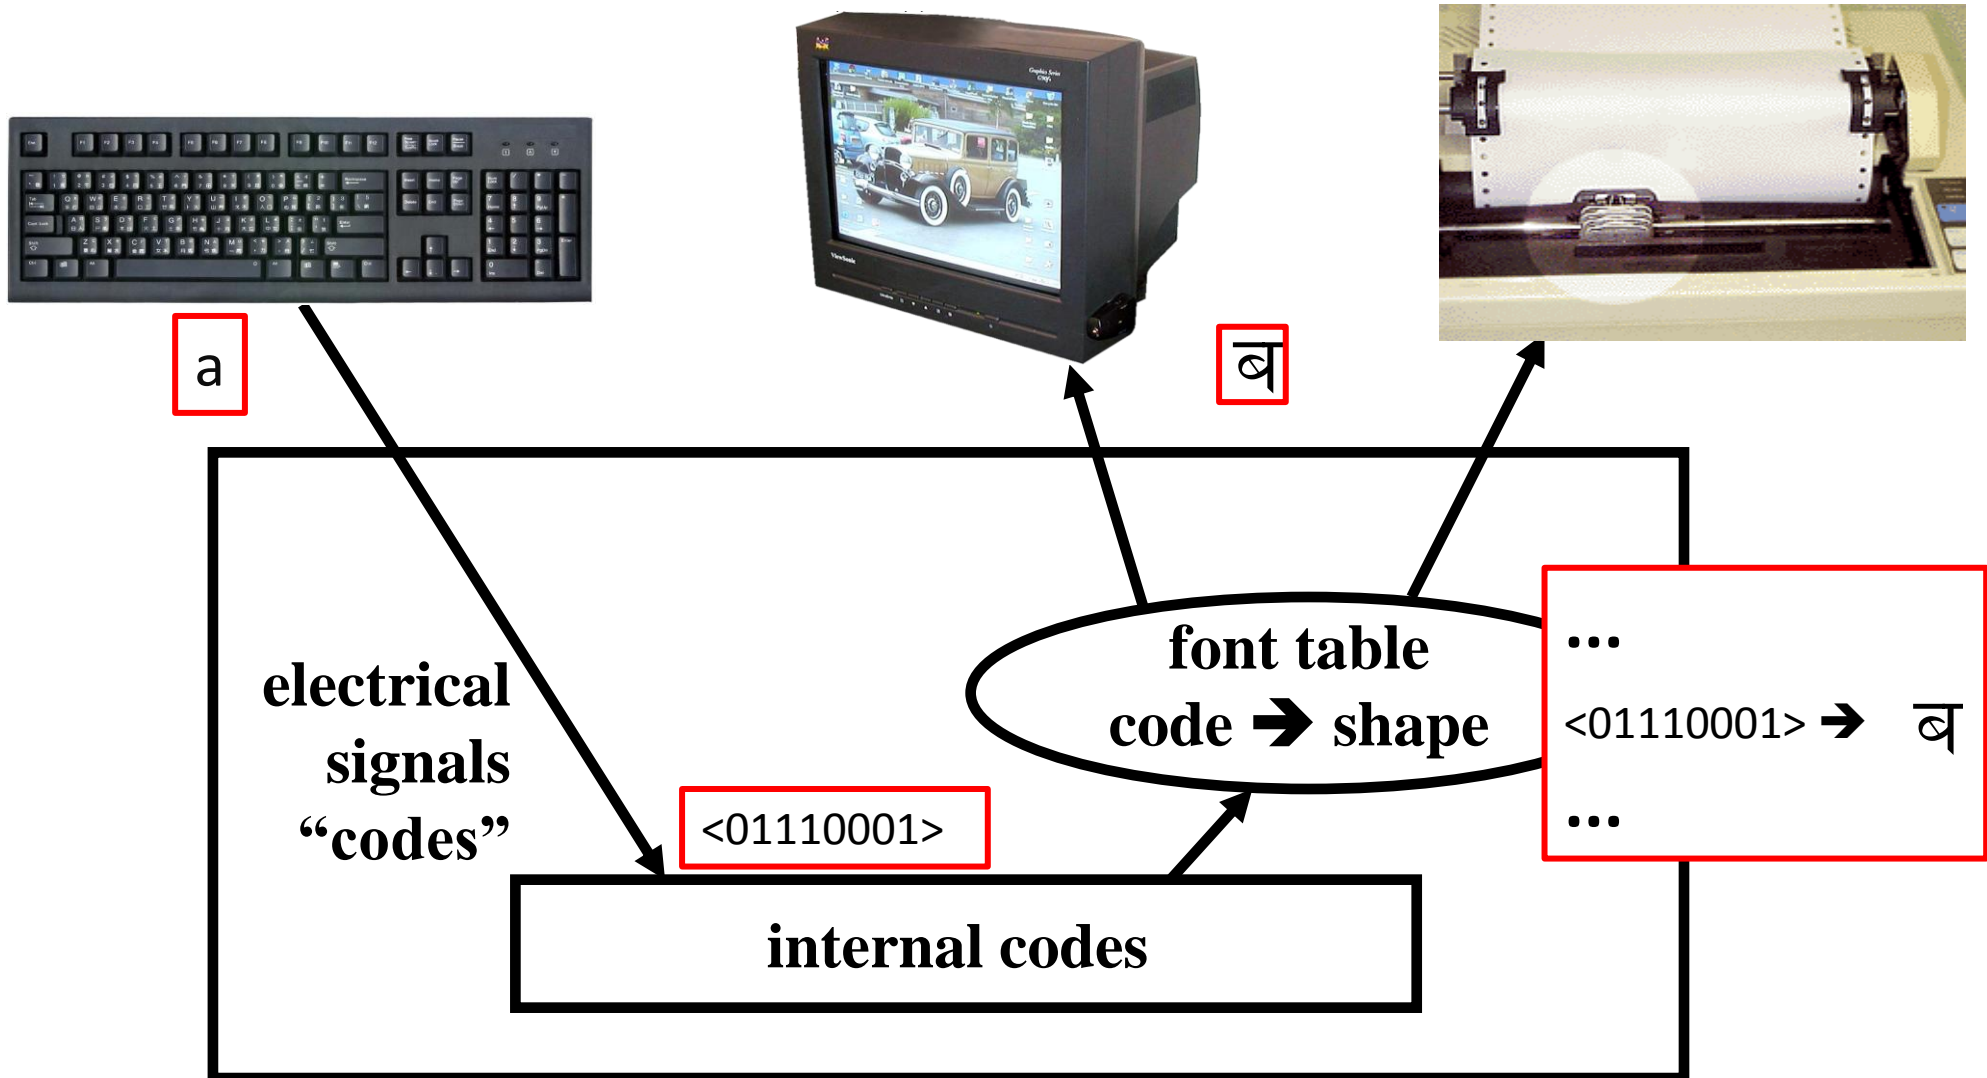

Language Technology Kendra

TUCDL – MPP - KUDCSE

languages and computing to date

- first computer around 1970 for 1971 census
- personal computers came in the 1980s
 - Macs and Microsoft PCs
- **hacked to do desk top publishing in Nepali**
 - limited quality, limited file sharing
 - Preeti font set the standard
- **technical advances by end 1990s**
 - key mapping, laser printing, Open Type fonts
 - Unicode
- able to do quality printing and share files
 - focused on Nepali in Devanagari
 - mostly desk-top publishing

making Preeti

many incompatibility fonts created different encodings

- Preeti

limited quality print, cannot transfer files

need a standard encoding – any standard will do – Preeti won

agricultural knowledge from LI-BIRD's latest publication

३. सामुदायिक बीउ बैंकका उद्देश्यहरू

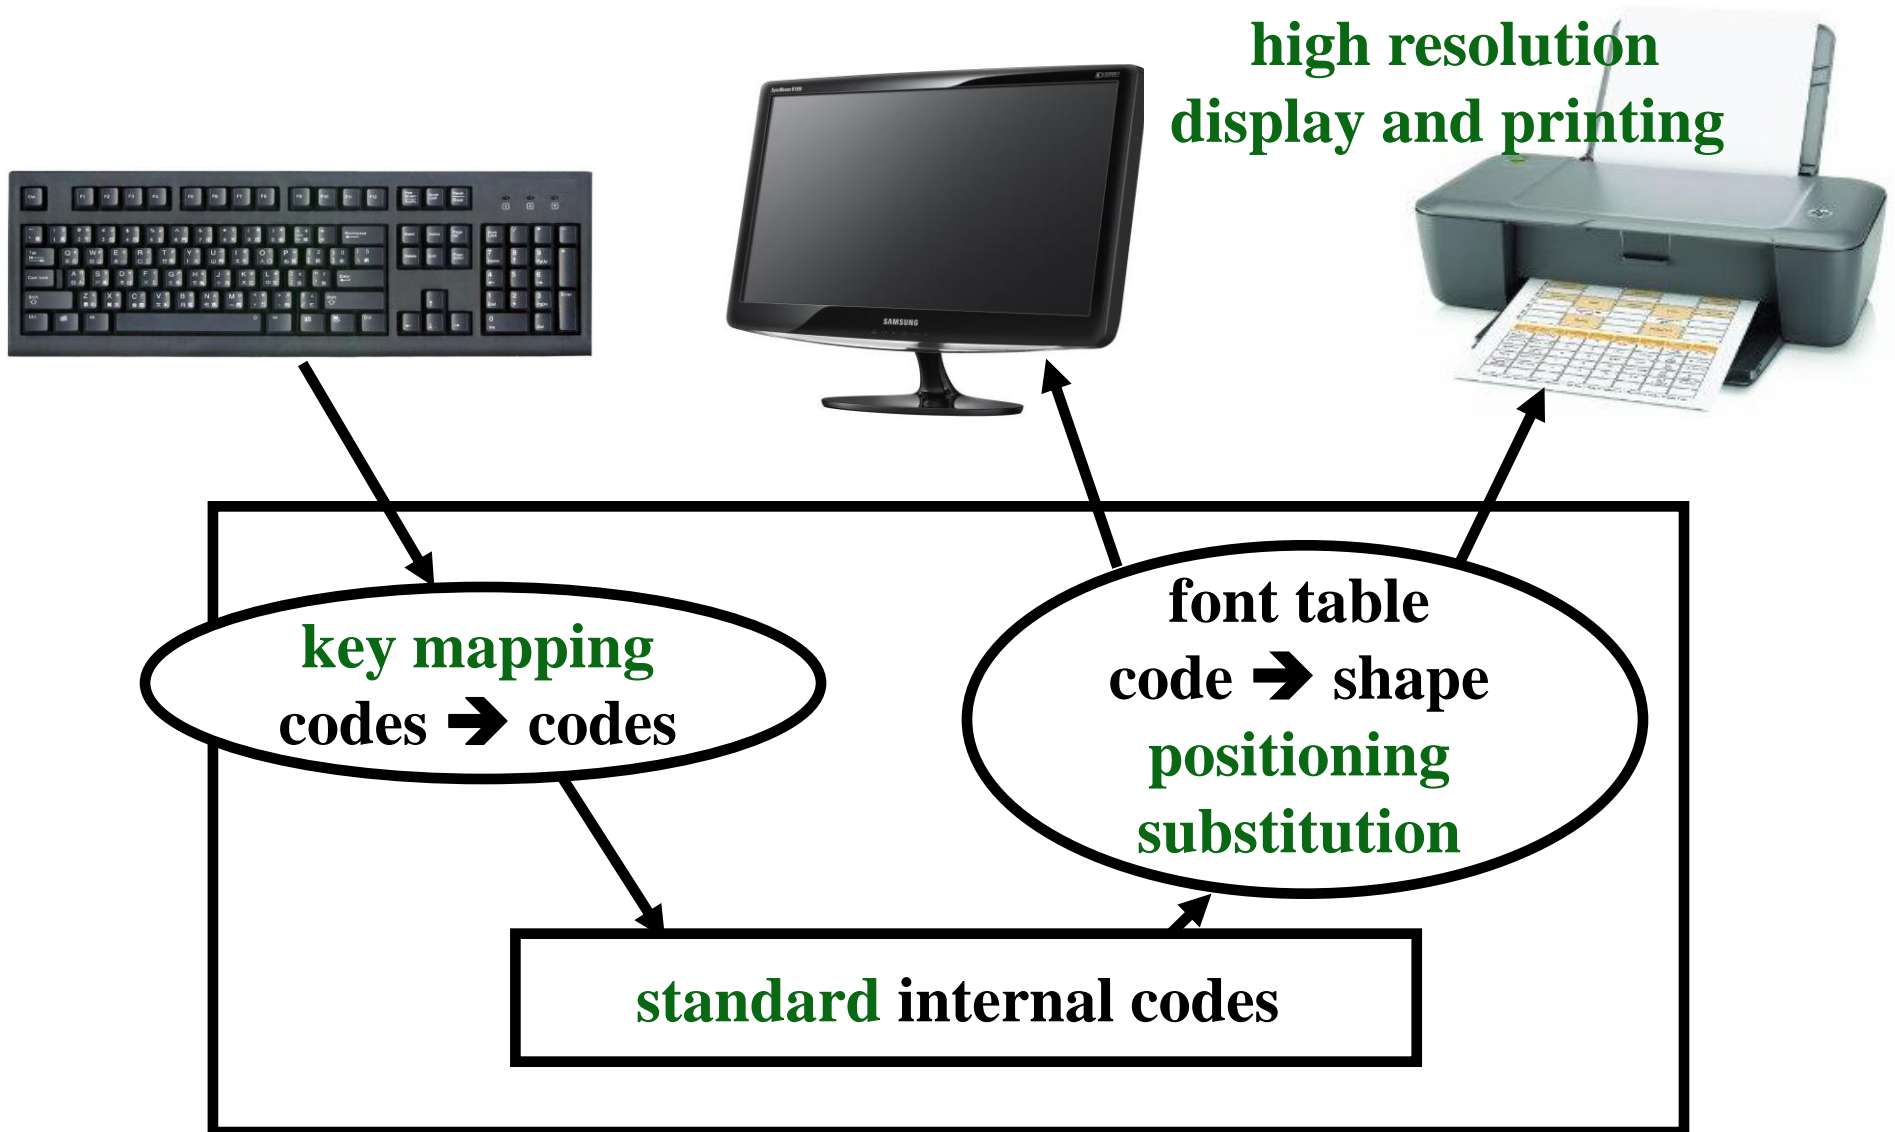

सामुदायिक बीउ बैंकको उद्देश्य यसको प्रकृति र लक्ष्यअनुसार फरक-फरक हुनसक्छ । स्थानीय बालीहरूको संरक्षणमा आधारित सामुदायिक बीउ बैंकको मुख्य उद्देश्य स्थानीय जातका बालीनालीहरूको दिगो संरक्षण तथा उपयोग गर्नु

सामुदायिक स्तरमा उत्पादन गरिएको राजमाको बीउको फलट निरिक्षण, फोटो : ली-बर्ड फोटो बैंक

all writing is in Preeti
Preeti has become the standard
code for Nepali!

meanwhile technology advanced

Universal codes

- **single encoding for all writing and languages**
 - include Chinese & Japanese writing
 - requires 16 bits per character
 - encode just the essentials
- **led to Unicode**
 - **tried for Nepali block around 1999 - rejected**
- **focuses on writing not language**
 - **often historical writing for scholars in US and Europe**
 - **but makes you understand your writing better**
- **OpenType fonts critically important**

The Font Standardisation Project

Developed by MPP with support from UNDP

For Windows 2000 and XP

1. A Unicode-compatible Nepali font and corresponding keyboard driver. 2. A customizable sorting utility for the Nepali language. 3. A typing tutor software to be distributed freely. 4. A Nepali font converter utility .

localising software

- **localised (translated) software interfaces**
 - Nepalinux by MPP funded by IRDC
 - MS Windows by Unlimited NuMedia
 - spell checkers, text-to-speech, ...
 - exploiting language technology to benefit Nepal
- **but Nepali not wanted by everyone**
 - survey showed people preferred English
 - disliked translations
 - rural communities liked it
- **elsewhere ICT4D projects mostly ignore language**
 - or get it wrong – eg Rajasthan

now – all languages important

- **changes in language policies post 1990**
 - newspapers, FM radio
 - schools – but many English medium!
- **government in own language**
 - maithili in parliament
 - hindi for vice-president oath
 - Kathmandu City wanted Nepal Bhasa
- **language is part of Identity**

activists create distinctive scripts

Gurung – Tamu Khema Phiri

Vowels

अ	आ	इ	उ
A	Ama	E-ma	U-ma
आं	आँ	आँ	आँ
Ye-ma	Yai-ma	O-ma	Ou-ma

**activists
create
distinctive
writing**

**Dhimal –
Dham script**

Newly Discovered Dhimal Script
by Daya Ram Dhimal "Lengbang"

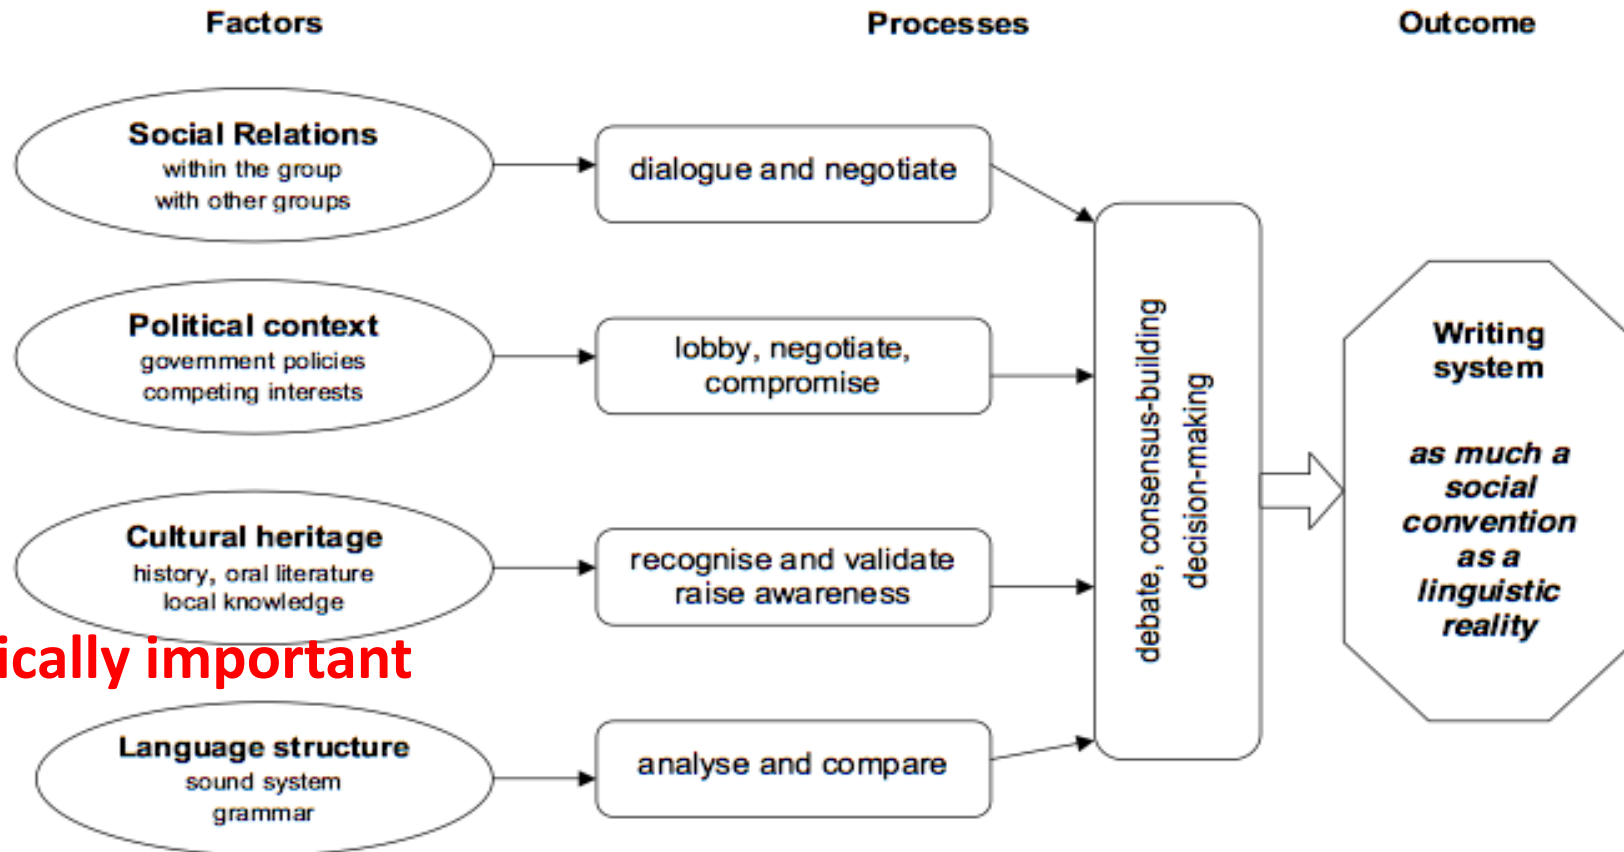

१०-६५३४३

create own writing systematically

- traditionally learnt from neighbours
- UNESCO process

3.2 Key Elements in Developing a Writing System

phonology critically important
TUCDL has
the expertise

use better technology

- **Unicode blocks for**
 - Devanagari, Lepcha, Limbu
- **Unicode proposals for, **mostly not necessary****
 - Nepal Lipi, under discussion
 - Gurung, Magar, Sunawar, Bantawa, Dhimal
 - Maithili - Tirhuta
- **Open type fonts for**
 - Maithili (Janaki)
 - Nepal Lipi
- **need**
 - more fonts, keyboard designs
 - computer dictionaries, spell checkers, speech synthesis

what is the future?

- **All languages should be written**
 - based on phonology
- **Tibeto-Burman languages Unicode block**
 - start with Nepal Lipi, unify with other related languages
- **Indo-Aryan languages use existing blocks**
 - Devanagari, Bengali
- **need for each language**
 - distinctive font and standard keyboards
 - computer dictionaries and spell checkers
 - text to speech synthesis
- **maybe just communicate in speech?**
